GOOD SHOES!

GOOD SHOES are health producers. Poor fitting ones not only torture the feet but look badly. Think of this when you start out to buy them. We show you nothing but what a first-class store ought to have, and our assortment of styles comprises everything desirable. Our prices are the lowest. We pick the good things out of the world's library of remunerative facts. And can view with complacency the feeble attempts of eager rivals to counteract our successes.

TARO PLANT

furnishes a complete food on which man can live without other diet. No other food possesses this feature. Its merit as a food is told in the fine physiques of the Hawaiian.

TAROENA is a concentrated food made from taro. It is cooked, ready for instant use. It will keep without change. The ease by which this food will be assimilated by the weakest stomachs, places it in the front rank as a complete food for the invalid and the infant.

TAROENA has undergone a rigid test in the United States during the past year. It has been tried by physicians, in hospitals and sanitariums and proved beyond doubt to possess all the merit that we claim for it. Physicians are prescribing it freely in their practice wherever we have introduced it. Its value to the medical profession is evidenced by the letters which we are receiving from doctors. Some of the letters are voluntary; others we asked for.

Get our new direction leaflet. It tells more about Taroena. When you need a food for your baby, or a diet for yourself, when stomach is out of order,

Try TAROENA.
